meet elizabeth.

elizabeth is a cute and ticklish girl who came to us through a "ticklish girls needed" ad that we posted.

she was really cute and helpless to reut's tuch....

as you can see we have also upgraded our device (perspexi)

it got a new name and now it can hold the victim standing as well as lying down !

lets hear your voice cheering for the new and improved PersWoodDskl !

Reut's side of view:

well i LOVE PERSWOODSKI!!!, and you can see why,

it was really fun tickling with it, and you can do so many things!

so elizabeth was its first but not last victim!

a sweet girl, very ticklish, she laught before we even started (i love when they do that>

we started out by tickling all over her armpits and belly

Enjoy,

reut.

Elizabeth feet part 2!

We introduced her to the electrical tooth brush!!

I really like the reaction when they hear it, so fearful and helpless

She has some really ticklish feet! Especially when the toothbrush is right between those baby toes, or when I tickled both her

feet with my fingers....

You can hear Those little shouts of her when laughing just isn't enough for her to deal with the intense tickling.

Enjoy! reut

Elizabeth part 4

check out our new device for his first time standing up!!!!

now you can see what the two black squares on the sides are, they are holes for my hands, now you can see them in use.
